

A **LEMOINE** COMPANY
Emergency Fuel Management

EMPOWERING RESILIENCE IN THE WAKE OF DISASTER AND EMERGENCY EVENTS

Fast, Reliable Emergency Fuel Solutions

Whenever and wherever disaster strikes, there is an immediate need for fuel to aid in recovery – and that’s why Macro is always prepared to help. Over the years we have provided emergency fuel, fuel dispensing equipment, logistics and management services to federal, state and local government agencies as well as utility companies, businesses and contractors who need to mobilize quickly following disasters. From Hurricane Katrina to the Haiti earthquake to major ice storms in the Midwestern U.S. – we have a proven track record for fast response, reliability and unsurpassed expertise in emergency fuel management services.

Unmatched Reputation

Since 1929, Macro has built an unmatched reputation as both a leader in the petroleum, petrochemical, and aggregate transportation industries, as well as one of the most relied-upon Emergency Fuel Management and Potable Water providers in the country.

With the nation’s largest company-owned fleet of trucks, trailers, and support equipment dedicated to emergency response work, Macro has the experience and resources to respond to any emergency – including hurricanes, tornadoes, ice storms, wildfires, earthquakes, floods, oil spills, and power outages.

38 HURRICANES + TROPICAL STORMS

2 HEALTH CRISES

1 CYBER ATTACK

A Global Provider of Comprehensive Disaster Services

Macro, a LEMOINE Company, plays a pivotal role in LEMOINE’s extensive disaster response capabilities. LEMOINE is a global provider of comprehensive Disaster Services equipped to prepare, respond, recover, and mitigate the impact of natural or man-made disasters and emergency events. Our team of industry leaders provides expertise in a range of services to address all aspects of disaster recovery including grant, program, and construction management; restoration and remediation; inspections and claims; strategic surge staffing; and emergency provisions such as power, water, fuel, and temporary facilities. By strategically investing in leading companies worldwide, LEMOINE is empowered to provide exceptional support throughout the entire disaster lifecycle, enabling us to respond effectively to national and international disasters.

MACRO OWNS AND OPERATES THE INDUSTRY’S LARGEST FLEET OF DEDICATED

Equipment

DEDICATED TO EMERGENCY RESPONSE WORK

Bobtail Fuel Trucks with capacity ranging from 1,000 to 4,500 gallons. 1,100 gallon capacity. Multi-compartments. High volume pumping system.

Fuel transport truck (tanker) with 8,500 gallon capacity.

Mobile fueling trailer. 8,500 gallon capacity. Multi-compartments. Dedicated pumping system, meters, hoses and nozzles specifically designed for refueling vehicles.

5 Ton Fuel Truck all wheel drive with two fuel tanks (1,000 gallon total capacity). High volume pumping system. High water/ all terrain capable.

Military Humvee with fuel capacity of up to 350 gallons. One or more high olume pumping systems. Meter Register. Hose length up to 125'. High water / all terrain capable.

Mini Mobile Fueling Trailer 1,500 gallon capacity. Dual wall tanks, multiple high volume fueling points.

ISO tank on chassis with 6,000 gallon capacity.

Frac Tanks with 22,000 gallon capacity.

OVER 600 COMPANY OWNED ASSETS

THE POWER OF Mobile Fueling

Among the most vital equipment we offer is the Mobile Fueling Trailer. This complete, portable fueling solution consists of a self-contained power source that combines high volume dispensing capabilities with maximum portability. In addition, these units are placed in a spill containment berm for increased safety and environmental protection. Other safety features include a grounding cable for vehicle refueling, spill response kits and safety cones.

MOBILE FUELING TRAILER

- Total fuel storage capacity – 8,500 gallons
- Setup and ready to dispense fuel in minutes
- Multiple high volume vehicle refueling points
- Fueling points have meter registers
- Grounding cable for vehicle refueling
- Self-contained power source plus separate pumping system for gasoline and diesel
- No special transportation permits required
- Equipped with portable spill containment berm, spill response kit and fire extinguisher

Personnel dispense fuel from Mobile Fueling Trailer

THE LATEST IN FUEL DELIVERY EQUIPMENT AND THE SERVICE TO BACK IT UP

From versatile bobtail trucks for mobile vehicle refueling to portable bulk fuel storage tanks and much more – we have all the fuel delivery systems and equipment that are vital to any recovery effort. Our line of equipment includes:

- Transport Trucks
- Bobtail Delivery Trucks
- Mobile Fueling Trailers
- Mini-Mobile Fueling Stations
- Personnel To Dispense Fuel
- Portable Fuel Storage Tanks (500 to 20,000 gallon)
- Vacuum Trucks
- Fuel Dispensing Equipment

DEPENDABLE SERVICE: 24/7, 365

- Vehicle Refueling
- Generator Refueling
- Nighttime Refueling at Staging Areas
- Fuel Transportation
- Temporary Fuel Depots
- Evacuation Support Refueling
- Aviation Fueling
- Propane Fueling
- Detailed Records of Fuel Dispensed

WHO WE SERVE

Utility and Critical Infrastructure • Healthcare Facilities • Government - Federal, State, and Local
Data Centers • Telecommunications • Commercial Businesses

Fueling utility crew vehicles at a staging area post Hurricane Ida in New Orleans, Louisiana

Military Humvee fueling water pump in high water conditions after Hurricane Florence in Outer Banks, North Carolina

Sheriff's helicopter receives jet fuel following Hurricane Michael in Panama City, Florida

Macro personnel dispense fuel and record critical data including date, quantity, fuel type, vehicle description and equipment number

OUR COMPANY-OWNED FLEET OF 60+

Potable Water

TRAILERS ARE READY TO SPRING INTO ACTION
AT A MOMENT'S NOTICE

PRISTINE TRANSPORT

Our trailers are dedicated to hauling potable water, so you get the cleanest quality possible.

NATIONWIDE DELIVERY

24/7 rapid response anywhere in the U.S.

LARGE CAPACITY

Each trailer can haul 6,000 gallons of potable water.

FACILITY SUPPORT

Our experienced team can find solutions for directly connecting to your water system.

THE CLEANEST STANDARDS

Macro follows all National Sanitation Foundation (NSF) sanitation guidelines for water potability.
